

WE INVITE YOU TO JOIN THE LARGEST EVENT FOR TRANSPORT AND LOGISTICS PROFESSIONALS IN THE BALTIC REGION – THE 7th INTERNATIONAL TRANSPORT INNOVATION FORUM!

80 speakers from **13** different countries, **900** representatives of the transport and logistics sector attending both on-site and online, and nearly **23,000** viewers following the Forum's opening broadcast on the Delfi portal – this was last year's Transport Innovation Forum. This year, we expect even more participants and no fewer distinguished guests.

Transport Innovation Forum 2025 is the place where representatives of leading businesses and public authorities, as well as leaders from research organizations and startups, will meet. They will share insights, exchange ideas, and seek opportunities for cooperation in shaping the future of the sector.

In today's rapidly changing and unpredictable world, the transport, logistics, and mobility sectors face unprecedented challenges. Geopolitical shifts are reshaping the global trade map, while rapid technological progress – especially in artificial intelligence and other advanced technologies – is transforming operational processes. At the same time, political and economic uncertainty, combined with growing environmental pressures, calls for **forward-looking, adaptable strategies to ensure resilience and sustainable growth in the sector.**

We invite you to a **two-day event** where we will discuss the most pressing issues of the transport and logistics sector, explore **solutions already applied by leading companies to strengthen business resilience, and highlight the success stories of startups.** The Forum will also feature a **Startup Pitch session** and the **Transport Innovation Awards.** You can expect not only engaging and valuable content but also the chance to **explore innovative exhibitions** and **network with transport and logistics professionals** gathered under one roof.

KEY TOPICS OF THIS YEAR'S FORUM:

GLOBAL TRADE AND BUSINESS ENVIRONMENT SHIFTS | MILITARY LOGISTICS AND DEFENSE MOBILITY | DIGITAL TRANSFORMATION AND CYBERSECURITY

AI AND METAVERSE SOLUTIONS FOR BUSINESS | INTEGRATION OF GREEN HYDROGEN TECHNOLOGIES | ELECTROMOBILITY

AUTONOMOUS TRANSPORT | URBAN MOBILITY INNOVATIONS | SMART CITIES

This year's keynote at the Transport Innovation Forum will be delivered by world-renowned **economics and geopolitics expert Sandra Navidi** – we believe her topic **“Tariffs, Trump and Trade Wars: Challenges and Opportunities for Europe”** will leave no one indifferent.

The Forum will feature speakers from the **European Parliament, Boston Consulting Group, the International Energy Agency, EIT Urban Mobility, the Open Logistics Foundation** as well as business leaders from **Lithuanian Railways, Klaipėda State Seaport Authority, Girtėka, Transporeon, DKV Mobility, Enefit, Neste, Volvo, Scania**, and many more.
