Closing gaps in
Member State
participation and
connecting ICT
systems. ■

Developing and
testing eFTI
platforms for
seamless data
exchange across
transport modes.

eFTI4LIVE

Including eFTI
Platform pre-
certification and
integration of
digital identity
wallets.

Piloting eFTI in
multimodal
transport
scenarios ■

Project Activities

- eFTI end-to-end pilots and interoperability testing

Operational and interoperability testing of eFTI exchange

- eFTI platform precertification

Streamline certification process of eFTI Platforms and eFTI Service Providers

eFTI and ICT systems integration and development

Gates & Platforms

Project Activities

- Initiation of accreditation and certification processes for eFTI Platforms

Establishing the necessary processes to ensure reliable and compliant use of the eFTI exchange environment.

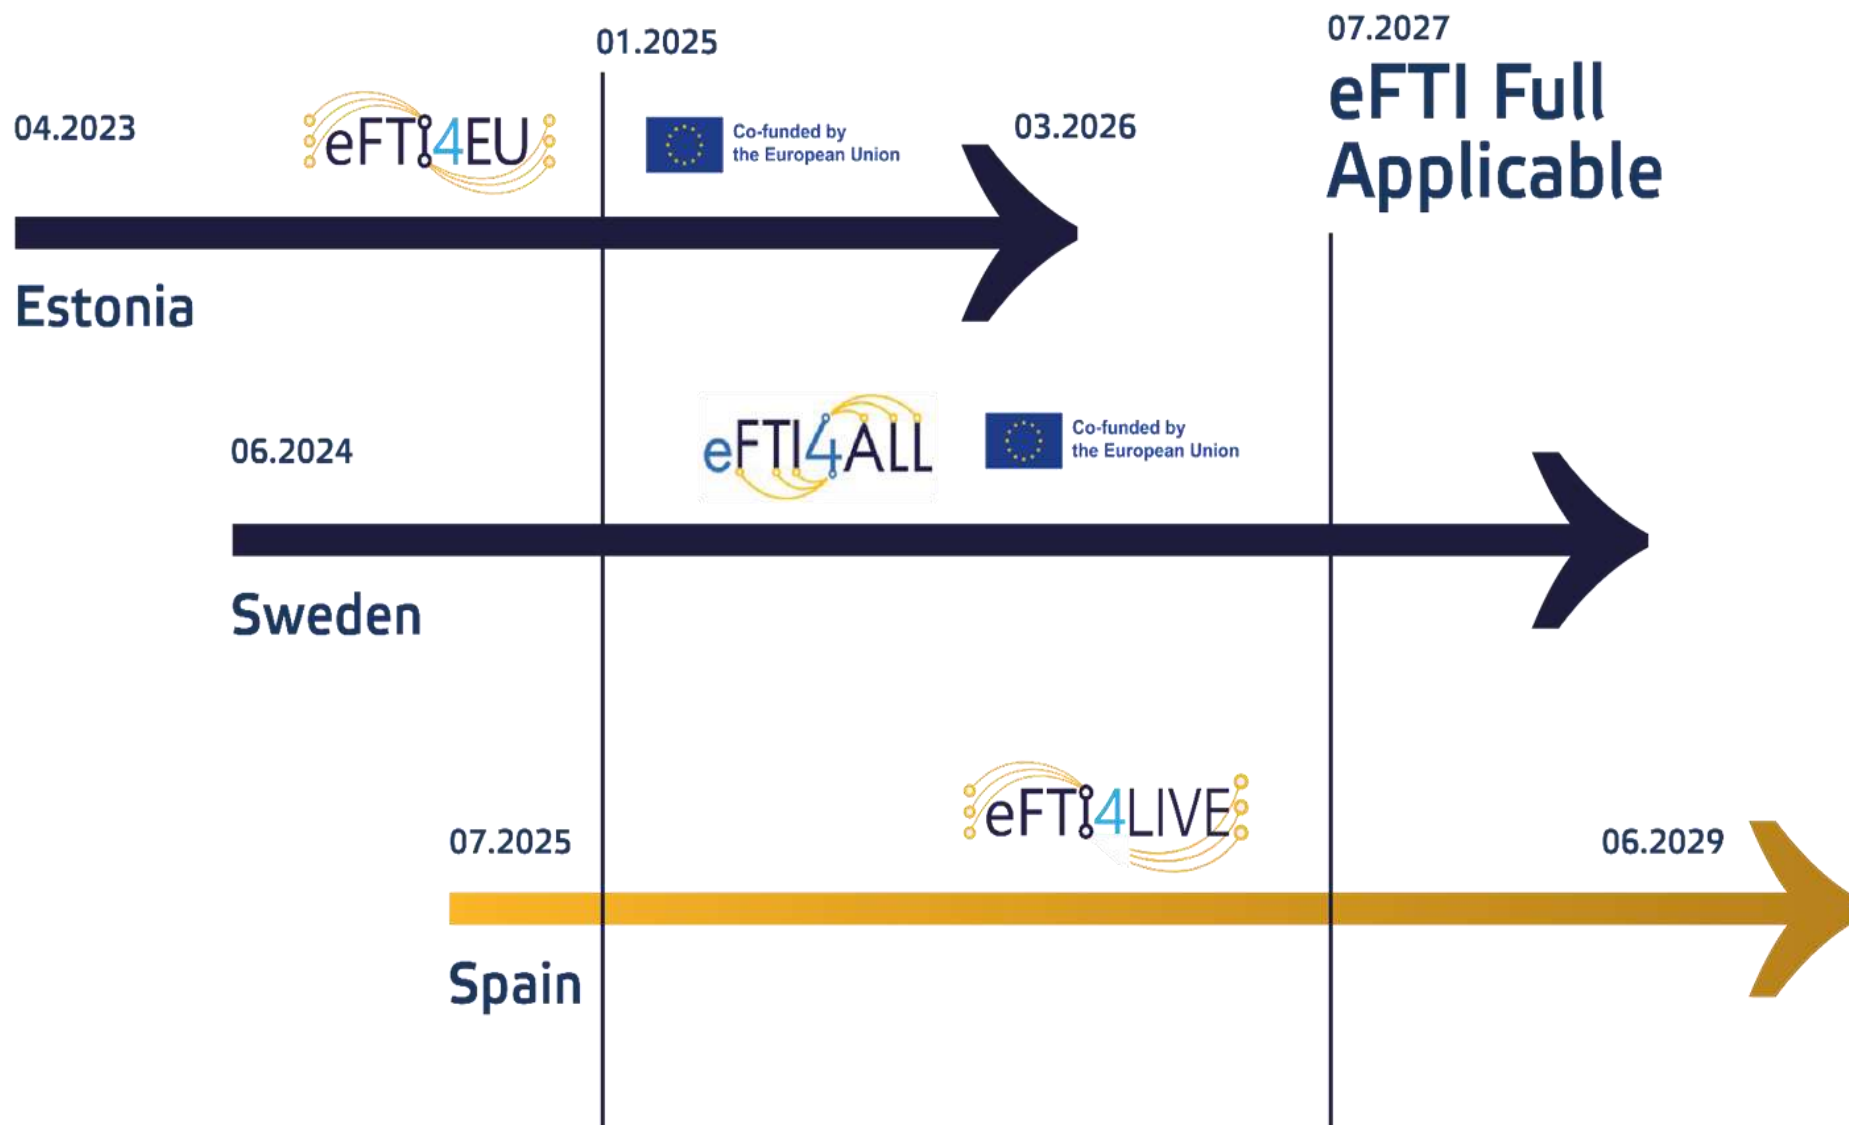

- Real-world implementation and go-live planning

Development and implementation of strategies for the rollout of the eFTI environment, including detailed timelines

Application of governance processes

Implementation of governance procedures in pre-production operations.

2025-2029:

+18 MS & Industry Organizations

Focus areas: eFTI production phase
certification, training

- ✕ **Go Live**
- ✕ Certification
- ✕ Production and interoperability validation
- ✕ Support to go production deployment
- ✕ Updates for data and reference implementation
- ✕ Governance model
- ✕ Training

2024-2028:

+5 MS & eFTI service providers

Focus areas: end-to-end eFTI
process and system integration

- ✕ **eFTI platforms**
- ✕ eFTI life cycle governance
- ✕ eFTI test bed
- ✕ Non-EU country adaptation
- ✕ End-to-end cross-border pilots
- ✕ Stakeholder engagement

2023-2026: 9 MS

Focus areas: eFTI Gates,
processes and interfaces

- ✕ eFTI regulation support
- ✕ **eFTI Gate Reference implementation**
- ✕ First level pilots with focus on eFTI Gates
- ✕ Technical requirements
- ✕ Knowledge building

Deliverables	(Expected) Due Date	Deliverables	(Expected) Due Date	Deliverables	(Expected) Due Date
D1.1 Roadmap workplan for IMS including templates	30.06.2023	D1.1 National eFTI Roadmaps	31.03.2025	D1.1 Authority eFTI implementation plans	01.05.2026
D1.2 eFTI System overview and interface specification	29.02.2024	D1.2 eFTI exchange environment test plan	30.11.2025	D1.2 Implementation Plan for Accreditation & Certification	01.04.2027
D1.3 National eFTI Roadmaps	12.09.2024	D1.3 eFTI life cycle governance implementation plan	28.02.2026	D1.3 eFTI Governance model report	01.12.2026
D1.4 eFTI System specifications (preliminary Versions)	24.03.2025	D1.4 Legal implementation and certification strategy plan (*1)	30.04.2026	D1.4 Best practice guidelines for Stakeholders	01.12.2027
D1.5 Reference implementation development plan	30.11.2025	D1.5 eFTI Gate and eFTI Platform cost models (*2)	30.06.2026	D1.5 eFTI communication framework	01.06.2028
D1.6 eFTI Gate service and content specification	24.03.2025	D1.6 Data sharing requirements and models for cross-border transport crossing external borders of EU	30.08.2026	D1.6 eFTI4LIVE Interface Control Document	01.05.2027
D1.7 Roadmap Status Report	05.11.2024	D1.7 Tested version of eFTI specifications	31.12.2027	D1.7 Progress report 1	01.07.2026
D1.8 eFTI exchange environment test plan	30.11.2025			D1.8 Progress Report 2	01.07.2028
D1.9 Legal implementation and certification strategy plan	31.10.2025				
D1.10 eFTI Gate Strategy and Governance model	31.12.2025				
D1.11 eFTI System specifications (final Versions)	31.10.2025				
Tasks		Tasks		Tasks	
Task 1.1 - Authorities' Road map (requirements and preparatory works)		Task 1.1 - Authorities' roadmap		Task 1.1 - Authorities' eFTI implementation plan	
Task 1.2 - Interoperability of eFTI exchange environment (planning, reference specification, testing)		Task 1.2 - Interoperability and life cycle governance of eFTI exchange environment		Task 1.2 - Implementation plan for accreditation & certification	
Task 1.3 - eFTI Gate Strategy and Governance (Common Rule Set)		Task 1.3 - Legal implementation and certification process		Task 1.3 - eFTI governance	
Task 1.4 - eFTI Gate Content and Accessibility (e.g., Metadata, Access Management)		Task 1.4 - eFTI Gate and eFTI Platform cost models		Task 1.4 - Best practices for stakeholders	
Task 1.5 - Legal implementation and Certification-related affairs and rules		Task 1.5 - Non-EU stakeholders' eFTI adoption		Task 1.5 - Scalable and secure eFTI communication framework	
				Task 1.6 - eFTI data model interoperability	

Spain in eFTI4LIVE

- A strong connection to maritime platforms of Spain's major maritime ports
 - Ministerio de Transportes y Movilidad Sostenible (coordinator).
 - Puertos del Estado (beneficiary).
 - Autoridad Portuaria de Huelva (beneficiary).
 - Administrador de Infraestructuras Ferroviarias (ADIF), (beneficiary).
 - Autoridad Portuaria de Valencia (beneficiary).
 - Fundación Valenciaport (beneficiary).
 - ENAC – Spanish accreditation body (observer)
- EFTI4LIVE is not an isolated project
 - The Ministry / Spanish authorities are preparing / referencing eFTI / eCMR obligations
 - Spain is developing / using a national digital platform “SIMPLE” , designed to act as eFTI Gate and integrate certification / governance
 - Legislative embedding: the “Ley de Movilidad Sostenible”

Thank You!

Co-funded by
the European Union
