INTERNAL: PIONIRA - Internal Use Only

Objective of this workshop

- Anticipate challenges related to the use of eFTI and propose solutions.
- Explore data access, cross-border exchanges, and situations where no response is available.
- Share national experiences and best practices.
- Identify European coordination needs.

Work in groups

1	Finding and accessing eFTI data across borders- shipment from country A to C, vehicle is stopped for control in country B. The officer initiates an identifier search using the vehicle registration number.
2	eFTI and CMR- One truck, four consignments, documents available through an eFTI platform, eCMR and paper CMR.
3	No response- shipment from country A to C, vehicle is stopped for control in country B. The officer identifies the transport and sends a request for the relevant eFTI information. No response is received.
